### Module Outline 2026

Last updated: 05 February 2026

## **Contents**

|       |                                            |    |
|-------|--------------------------------------------|----|
| 1.    | Introduction.....                          | 4  |
| 1.1.  | The purpose of the module framework .....  | 4  |
| 1.2.  | Module prerequisites .....                 | 4  |
| 1.3.  | Module outcomes .....                      | 4  |
| 1.4.  | Language of instruction .....              | 7  |
| 1.5.  | Student advising .....                     | 7  |
| 2.    | Administration .....                       | 8  |
| 2.1.  | Lecturers.....                             | 8  |
| 2.2.  | Divisional head: Financial Accounting..... | 8  |
| 2.3.  | Groups .....                               | 9  |
| 2.4.  | Lecture times .....                        | 9  |
| 3.    | Resources.....                             | 10 |
| 3.1.  | Prescribed textbook.....                   | 10 |
| 3.2.  | Calculators .....                          | 10 |
| 3.3.  | Suggested additional resources .....       | 10 |
| 4.    | Learning methodology.....                  | 11 |
| 4.1.  | Method of instruction.....                 | 11 |
| 4.2.  | Participation in module activities .....   | 11 |
| 4.3.  | Lectures and class attendance .....        | 11 |
| 4.4.  | Individual Learning Programme (ILP).....   | 12 |
| 4.5.  | Self-study.....                            | 13 |
| 4.6.  | Structured tutorials.....                  | 13 |
| 4.7.  | Peer academic support programme (PAS)..... | 13 |
| 4.8.  | EMSLearn.....                              | 14 |
| 4.9.  | Professional communication.....            | 14 |
| 4.10. | Consultation times .....                   | 15 |
| 4.11. | WhatsApp group .....                       | 15 |
| 4.12. | EMSLearn discussion forum .....            | 16 |
| 4.13. | Copyright.....                             | 16 |
| 5.    | Assessment for year modules.....           | 16 |
| 5.1.  | Assessment opportunities.....              | 18 |
| 5.2.  | Pass requirements.....                     | 20 |
| 5.3.  | Access to Assessment 3 (A3).....           | 20 |

## Financial Accounting 178 | 2026

|       |                                                                            |    |
|-------|----------------------------------------------------------------------------|----|
| 5.4.  | Clashes with assessments in other modules:.....                            | 21 |
| 5.5.  | Work covered per assessment opportunity.....                               | 21 |
| 5.6.  | Main assessment opportunities .....                                        | 22 |
| 5.7.  | Assessment further (AF).....                                               | 22 |
| 5.8.  | Formative assessment further (FAF) .....                                   | 22 |
| 5.9.  | Rules applicable to main assessments .....                                 | 22 |
| 5.10. | Dishonest conduct .....                                                    | 23 |
| 5.11. | Moderation.....                                                            | 23 |
| 5.12. | Presentation of answers in assessments .....                               | 23 |
| 5.13. | Turnover time and feedback.....                                            | 24 |
| 5.14. | Handout of tests, appeals / remarks.....                                   | 24 |
| 6.    | Academic integrity and the use of generative AI tools in this module ..... | 26 |
| 7.    | Class representatives .....                                                | 29 |
| 8.    | Students switching from B.Acc to B.Com (FinAcc 178 to FinAcc 188) .....    | 29 |
| 9.    | Help from external parties.....                                            | 29 |
| 10.   | Financial Accounting 178 summer school.....                                | 30 |
| 11.   | Work program.....                                                          | 31 |
| 12.   | Example: assessment instructions .....                                     | 32 |

### 1. INTRODUCTION

Welcome to the Financial Accounting 178 module!

#### 1.1. THE PURPOSE OF THE MODULE FRAMEWORK

This module framework contains important information regarding the content, assessment and administration of the module. The module framework is a document that is regarded as an agreement between a lecturer and student. It is the student's responsibility to read through the module framework, course information and relevant sections of the University's Yearbook to ensure that they are familiar with the information provided.

#### 1.2. MODULE PREREQUISITES

This module is for students studying BAccounting (BAcc) or BAccounting LLB (BAccLLB) **and** who had Accounting in grade 12.

#### 1.3. MODULE OUTCOMES

The detail technical knowledge outcomes of each topic are included within the course material. The topics are mentioned under section 11.

| <b><i>On completion of this module, students should be able to:</i></b>     | <b><i>For assessment purposes, students should be able to:</i></b>                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Record transactions in the accounting records of a company.              | <ul style="list-style-type: none"><li>• Record and process transactions in the correct general ledger accounts and the general journal.</li><li>• Account for transactions over more than one financial year.</li></ul>                                                                                                                                                                                                                      |
| 2. Prepare financial statements of an individual company.                   | <ul style="list-style-type: none"><li>• Identify and correct errors.</li><li>• Prepare reconciliations.</li><li>• Process closing journal entries.</li><li>• Draw up a trial balance.</li><li>• Prepare a statement of financial position, a statement of comprehensive income, a statement of changes in equity, a statement of cash flows and the relevant notes to these financial statements.</li></ul>                                  |
| 3. Prepare a basic consolidated statement of financial position of a group. | <ul style="list-style-type: none"><li>• Motivate which investments should be consolidated.</li><li>• Discuss basic consolidation procedures.</li><li>• Calculate possible goodwill or gain on bargain purchase, and the non-controlling interest.</li><li>• Prepare the pro-forma consolidation journal entries on date of acquisition.</li><li>• Prepare the consolidated statement of financial position on date of acquisition.</li></ul> |

|                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4. Apply theoretical knowledge of International Financial Reporting Standards (IFRS).                     | <ul style="list-style-type: none"> <li>• Discuss the objective of general-purpose financial reporting.</li> <li>• Apply and discuss the qualitative characteristics of useful financial information.</li> <li>• Discuss the purpose of financial statements and its underlying assumptions.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 5. Master the technique of answering a theoretical question in Financial Accounting.                      | <ul style="list-style-type: none"> <li>• Apply, discuss, evaluate and conclude on theoretical aspects in IFRS.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6. Apply and evaluate accounting treatment according to IFRS.                                             | <ul style="list-style-type: none"> <li>• Correctly classify assets, liabilities, equity, income and expenses according to the relevant standard.</li> <li>• Correctly recognise assets, liabilities, income and expenses according to the relevant standard.</li> <li>• Accurately measure assets, liabilities, equity, income and expenses initially and subsequently according to the relevant standard.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 7. Apply theoretical knowledge of the accounting treatment for a company and basic legal requirements.    | <ul style="list-style-type: none"> <li>• Understand the accounting cycle and systems.</li> <li>• Understand the flow of information from accounting records to financial statements</li> <li>• Identify the characteristics, advantages and disadvantages of companies.</li> <li>• Understand how a company is founded and managed.</li> <li>• Understand Companies Act of 2008 legislation with respect to company administration, share capital and financial reporting.</li> <li>• Calculate and record transactions inclusive of VAT.</li> <li>• In compliance with the Companies Act and IFRS: <ul style="list-style-type: none"> <li>○ Calculate and record transactions relating to share capital.</li> <li>○ Record transactions relating to companies income taxation.</li> <li>○ Calculate and record transactions relating to ordinary and preference dividends.</li> </ul> </li> </ul> |
| 8. Develop graduate attributes and professional competencies required by the CA of the Future framework*. | <ul style="list-style-type: none"> <li>• Understand the meaning of the different attributes and competencies.</li> <li>• Apply the relevant attributes and competencies when answering questions in assessments.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Financial Accounting 178 | 2026

The CA of the Future competencies which you need to develop over the course of your BAcc studies are:

| PROFESSIONAL VALUES AND ATTITUDES          |      |                                      |
|--------------------------------------------|------|--------------------------------------|
| Ethics, values and attitudes               | I1   | Personal ethics                      |
|                                            | I2   | Business ethics                      |
|                                            | I3   | Professional ethics                  |
| Citizenship, values and attitudes          | II1  | Personal citizenship                 |
|                                            | II2  | Professional citizenship             |
|                                            | II3  | Corporate citizenship                |
| Lifelong learning, values and attitudes    | III1 | Self-development                     |
|                                            | III2 | Adaptive mind set and agility        |
| ENABLING COMPETENCIES (DEFINED AS ACUMENS) |      |                                      |
| Business acumen                            | Z1   | Business internal environment        |
|                                            | Z2   | Business external environment        |

| Decision-making acumen                     | Y1   | Analytical/critical thinking         |
|                                            | Y2   | Integrated thinking                  |
|                                            | Y3   | Problem solving                      |
|                                            | Y4   | Judgement and decision-making        |
|                                            | Y5   | Professional scepticism              |
| Relational acumen                          | X1   | Communication skills                 |
|                                            | X2   | Leadership skills                    |
|                                            | X3   | People skills                        |
|                                            | X4   | Relationship-building skills         |
|                                            | X5   | Teamwork                             |
|                                            | X6   | Self-management                      |
|                                            | X7   | Managing others                      |
|                                            | X8   | Emotional intelligence               |
| Digital acumen                             | W1   | Computational thinking               |
|                                            | W2   | Data knowledge and strategy          |
|                                            | W3   | Data analytics                       |
|                                            | W4   | Automation                           |
|                                            | W5   | New developments and protocols       |
|                                            | W6   | Cyber security                       |
|                                            | W7   | User competencies                    |

### 1.4. LANGUAGE OF INSTRUCTION

Financial Accounting 178 is presented according to the Parallel medium option as indicated in the faculty language plan and the guidelines per section 7.1.3 of the implementation plan are applicable:

- There are separate lectures in Afrikaans and English.
- Learning opportunities, such as group work, assignments, tutorials and practicals involving students from various language groups are utilised to promote integration within programmes.
- Students are supported in Afrikaans and English during a combination of appropriate, facilitated learning opportunities (e.g. consultations during office hours or scheduled tutorials and practicals).

Students must ensure that their chosen language of instruction is correctly indicated on My.Sun. If you choose to attend class in a specific language, it must be indicated as such on the system.

### 1.5. STUDENT ADVISING

Please consult your lecturer, module coordinator or programme leader for academic and/or career advice as they are best positioned to offer guidance on matters related to module choices and future career trajectories.

The Registrar's division only deals with matters related to your academic programme, academic record and registration. Please email [registrarems@sun.ac.za](mailto:registrarems@sun.ac.za) for more information or to schedule a consultation.

If you are exploring the option of leaving BAccounting for another Economic and Management Sciences degree that is **NOT** BCom Financial Accounting or BCom Management Accounting, you are advised to speak to the Faculty's Student Academic Advisor, Ilse Frans ([emsinfo@sun.ac.za](mailto:emsinfo@sun.ac.za)) to discuss your options. For students exploring the option of converting to BCom Financial Accounting or BCom Management Accounting, you are advised to speak to the module head for further information.

For student support services, please consult with the Student Academic Advisor, Ilse Frans ([emsinfo@sun.ac.za](mailto:emsinfo@sun.ac.za)).

### 2. ADMINISTRATION

#### 2.1. LECTURERS

The following lecturers are involved with the Financial Accounting 178 module:

| Mrs E De Jager, CA(SA)                                                            | Mr L Ngobese, CA(SA)<br><i>Module Co-ordinator</i>                                | Mr A de Laan, CA(SA)                                                               | Mr T Cloete, PGDA                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |  |  |
| 021 808-2685                                                                      | (021) 808 9695                                                                    | 021 808-2342                                                                       | 021 808-9122                                                                        |
| Van der Sterr 2078                                                                | Van der Sterr 3079                                                                | Van der Sterr 3091                                                                 | Van der Sterr 2064                                                                  |
| <a href="mailto:edejager@sun.ac.za">edejager@sun.ac.za</a>                        | <a href="mailto:Lmngobese@sun.ac.za">Lmngobese@sun.ac.za</a>                      | <a href="mailto:amber@sun.ac.za">amber@sun.ac.za</a>                               | <a href="mailto:tairique@sun.ac.za">tairique@sun.ac.za</a>                          |

*\* All administrative queries can be directed to Mr Ngobese.*

The general telephone number of the School of Accountancy is (021) 808 3428.

The lecturers are there to support you in gaining the required knowledge and skills to pass Financial Accounting 178 successfully.

You are welcome to discuss any problems relating to the course content, as well as any problem affecting your studies, with the lecturers. This applies to all students, not only those that are struggling. **Do not, however, wait until the end of the academic year before discussing your problems.** It might already be too late. Try to resolve problems as they arise.

#### Student access to the Van der Sterr Building

Students should use **Entrance 2** to the Van der Sterr Building in Bosman Street to gain access to the lecturers' offices. Student cards will work at the doors between 8am and 4pm on weekdays.

#### 2.2. DIVISIONAL HEAD: FINANCIAL ACCOUNTING

Prof G Steenkamp is the head of the Financial Accounting division of the School of Accountancy. You are welcome to discuss any unresolved problems with her. Her contact details are as follows:

Office: Van der Sterr 3110 | E-mail: [gvn@sun.ac.za](mailto:gvn@sun.ac.za) | Tel: (021) 808 3420

## Financial Accounting 178 | 2026

### 2.3. GROUPS

All Financial Accounting 178 students will attend class in one of three groups (one Afrikaans group and two English groups).

At registration, students will automatically be placed into a designated group. This information is available on My.SUN and is important for your schedule.

### 2.4. LECTURE TIMES

#### Lecture venues and times

The lectures for the different groups will be at the following times and venues:

| <b><u>Day</u></b> | <b><u>Group 1.1 Afrikaans</u><br/>VDS 1026</b> | <b><u>Group 1.2 English</u><br/>Chemistry 2011</b> | <b><u>Group 2 English</u><br/>Mathematical<br/>Sciences /<br/>Industrial<br/>Psychology 3001</b> |
|-------------------|------------------------------------------------|----------------------------------------------------|--------------------------------------------------------------------------------------------------|
| Monday            | 12h10 – 13h00                                  | 12h10 – 13h00                                      | 15h10 – 16h00                                                                                    |
| Tuesday           | 10h10 – 11h00                                  | 10h10 – 11h00                                      | 09h10 – 10h00                                                                                    |
| Wednesday         | 08h10 – 09h00                                  | 08h10 – 09h00                                      | 11h10 – 12h00                                                                                    |
| Thursday          |                                                |                                                    |                                                                                                  |
| Friday            | 09h10 – 10h00                                  | 09h10 – 10h00                                      | 12h10 – 13h00                                                                                    |

The attendance of all classes, and participation during classes, are **compulsory**.

#### PLEASE NOTE the following timetable changes:

- Tuesday, 28 April 2026 follow a Monday timetable
- Wednesday, 12 August 2026 follow a Monday timetable

#### Class-free days

It is the policy, **only with regard to undergraduate modules presented by the School of Accountancy**, that there will be no classes on days being the only day between a public holiday and a weekend, i.e. Mondays and Fridays. The backlog in work dealt with as a result of the exemption of classes, will be caught up in the course of the academic year.

In 2026, there is one such day namely Friday, 25 September 2026.

Note that every effort has been made to plan the course outline around public holidays. Therefore, no lectures will be cancelled during the year.

### 3. RESOURCES

#### 3.1. PRESCRIBED TEXTBOOK

No textbooks are prescribed for this module. All study material necessary will be made available electronically on EMSLearn. It is the responsibility of students to print all notes before each topic and to bring notes to class.

Class notes do not represent complete summaries of the prescribed work. It is only an aid to guide students and is incomplete due to the cryptic nature thereof. To successfully master the prescribed course content, students need to make their own notes to supplement the class notes provided. Students will not pass this course by only studying the class notes and practising old papers.

Students are encouraged to keep 1<sup>st</sup> year notes for 2<sup>nd</sup> year, 3<sup>rd</sup> year and PGDA/Honours, since the work follows each other and there will be referred back to 1<sup>st</sup> year notes.

Some International Financial Reporting Standards (IFRS) will be made available as part of the learning material. Certain sections of this material will also be included as an attachment to the assessments as part of the limited open book regulation.

#### 3.2. CALCULATORS

Students may only use quiet, electronic, battery operated, non-programmable calculators in the test and examination venues. Calculators may not contain alphabetical keys that cover the full alphabet. Calculators must be cordless and not have printing facilities. Kindly contact the lecturers involved in the module if you have doubts about the acceptability of a specific calculator.

Students must note:

- The calculator function on any electronic device (i.e. laptops and **cell phones**) may **not** be used; and
- Candidates may **not share** a calculator with another candidate in the examination room.

The **Hewlett Packard 10BII+** financial calculator is suggested by the Faculty of Economic and Management Sciences.

#### 3.3. SUGGESTED ADDITIONAL RESOURCES

The following resources are available to all students who feel they need additional assistance and should be sought in this order:

- Consultations with the lecturer, during consulting hours
- ILP classes (refer to section 4.4)
- Structured tutorials (refer to section 4.6)
- Peer Academic Support (PAS) (refer to section 4.7)

### 4. LEARNING METHODOLOGY

#### 4.1. METHOD OF INSTRUCTION

This module will be offered as a contact module, as students will be required to attend learning opportunities and lectures using the traditional timetable. Principles of adult learning, with an emphasis on blended learning, will be applied. Methods of instruction include theoretical inputs, class discussions, practical exercises and case studies. EMSLearn will be used to provide learning material (theory, questions, suggested solutions, PowerPoints and videos) to students.

Students are invited to participate interactively in this module and ask questions in class whenever anything is unclear. Assignments and online quizzes will be made available to students on a regular basis. These will be used for formative assessment purposes to assist students in determining whether they have understood and internalised the knowledge included in the topic.

**Lectures will not be streamed and recordings of lectures will not be made available to students on EMSLearn.**

The attendance of ILP classes (section 4.4) and structured tutorials (section 4.6) is mostly voluntary and due to students who might have clashes, recordings of these classes will be uploaded onto EMSLearn. However, we still recommend that students attend these classes in person rather than rely on the recordings.

#### 4.2. PARTICIPATION IN MODULE ACTIVITIES

Stellenbosch University is a contact university that provides teaching through face-to-face contact time complemented by an online learning management system (EMSLearn). To ensure that you master the learning outcomes of this module, there is an expectation that you keep up with the learning activities and actively participate in both the online and face-to-face components of the module.

#### 4.3. LECTURES AND CLASS ATTENDANCE

**Class attendance is compulsory in this module.** Each class that you attend contributes to your learning. Research confirms that not attending classes will negatively influence your ability to pass.

Financial Accounting 178 largely expands on the school accounting curriculum.

You will however be exposed to new concepts, which you will encounter in practice every day. You still require the basic accounting procedures you have done up to this stage as basis for the financial accounting to which you will be exposed to in future, but now enters the next phase. Here not only bookkeeping knowledge for the preparation of records will be required, but you have to start arguing the accounting alternatives. You must take a stand on controversial aspects and to assist you with this, it is required that you understand, know, think about and be able to apply International Financial Reporting Standards (IFRS).

You are thus required to think about the subject and not only be able to practice it by repetition. **Your insight will be assessed and not your ability to repeat a recipe** (*CA of the Future: Decision-making acumen*).

## Financial Accounting 178 | 2026

There are no separate practical or tutorial classes for Financial Accounting 178. During the presentation of each topic, time is spent to explain the underlying theory and principles to the questions. These principles form the basis of the questions and you should understand them before attempting the questions. With each topic, lectures are allocated to the class questions, which illustrate the application of some of the principles. These practical classes replace any tutorials.

To gain the maximum value out of the classes, you are required to go through the notes of the previous class. In preparation for the practical classes, class exercises are identified that you should do at home, mark it and then the exercise will be discussed in class. The purpose is binary – first it gives you the chance to do the exercises and test whether you understand the work and secondly, it teaches you how questions are marked.

Students are expected to come to class prepared. The lecturers will assume that the work of the previous lecture was worked through and that the class question was worked through at home.

During lectures, it is the lecturer's objective to guide students through topics in the syllabus so that students can learn quicker and more effectively. The lecturer will give guidance as to what must be studied, why it must be studied and where to gather the information. Opportunities for assessment, evaluation and feedback will be provided during lectures.

Keep in mind that your lecturers are not teachers. We are here to guide you in your own development and learning, and not to "teach" you. You will therefore carry full responsibility for your own progress and will have to organise yourself accordingly (*CA of the Future: Lifelong learning, values and attitudes*).

Students who schedule other non-academic activities during the formal lecture times are not entitled to a recording of the lecture. Missing a lecture on account of an illness or any other similar reason, also does not make a student entitled to a recording. The lecturers will, however, assist students who missed lectures due to circumstances beyond their control (e.g. on account of illness) and students are welcome to contact the relevant lecturers in this regard.

### 4.4. INDIVIDUAL LEARNING PROGRAMME (ILP)

The primary objective of the ILP program is to help students to pass the module and ultimately achieve selection for BAcc PGDA or BAcc Honours. The program consists of one additional lecture per week for each of the professional subjects. During your first year of study, the program is presented for Financial Accounting 178 only.

ILP sessions will be presented in dual medium, i.e. English and Afrikaans to enable more students to attend classes and to promote integration.

Wednesdays 13h10 – 14h00 in Van der Sterr 1024

**Or:**

Thursdays 11h10 – 12h00 in Van der Sterr 1024 (repeat of the Wednesday ILP)

### 4.5. SELF-STUDY

Certain parts of the work cannot be handled in class and will be given as self-study. These parts are as important as the work done in class. Self-study questions should be used by students for extra exercise and to work questions out themselves (under time pressure) to measure their knowledge (*CA of the Future: Lifelong learning, values and attitudes*).

### 4.6. STRUCTURED TUTORIALS

The primary objective of structured tutorials is to encourage students to develop a habit of continuous study throughout the term, to seek assistance when they experience difficulties, and to practice their examination technique. Structured tutorials are presented by temporary lecturers with guidance from module coordinators.

Structured tutorials are 60 minutes long. During a structured tutorial, students attempt a specific allocated question within the time limit of the question. This question will be answered under test conditions, with no notes and only standards and acts which are allowed in tests available for reference.

After the allocated time, the temporary lecturers will help the students mark their attempts and discuss the question while demonstrating the appropriate exam technique. Classes will take place in the form of face-to-face sessions. Attendance of the structured tutorials may become compulsory based on your performance in the module.

The structured tutorial schedule for 2026 is as follows:

| Date   | Day    | Time        | Venue              |
|--------|--------|-------------|--------------------|
| 20-Feb | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 6-Mar  | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 20-Mar | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 24-Apr | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 8-May  | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 7-Aug  | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 21-Aug | Friday | 16:00-17:00 | Van der Sterr 1046 |
| 09-Oct | Friday | 16:00-17:00 | Van der Sterr 1046 |

### 4.7. PEER ACADEMIC SUPPORT PROGRAMME (PAS)

The purpose of the program is to create a platform for students to receive module-specific assistance from their peers (Facilitators) whether in understanding key topics, threshold concepts, or assignments, as well as requiring help with broader academic challenges such as time management or study techniques. While the Facilitators primarily engage with students on technical matters, students are encouraged to use them as sounding boards on how to manage BAccounting/BAccLLB from a students' perspective or how to, at a high-level, tackle the other modules in the BAccounting programme.

## Financial Accounting 178 | 2026

The facilitators are selected from a pool of prior students who achieved a minimum final mark of 75% for Financial Accounting 178. Further information on how to book these sessions will be communicated to students on EMSLearn (see 4.8 below).

Please note that consultations with the facilitators are not free tutorials where the tutor teaches the work from scratch. The tutor is there to assist students with specific issues related to the module content or broader degree queries from a student's perspective. Students are required to come prepared to these sessions to maximise their experience.

### 4.8. EMSLEARN

EMSLearn is an integral part of this module. It should be consulted regularly for resources, communication (including test and mark-to-date marks) and learning activities. **It is of utmost importance that you read all the announcements posted onto EMSLearn daily** (*CA of the Future: Relational acumen*).

### 4.9. PROFESSIONAL COMMUNICATION

Professional communication skills are an important characteristic of any accountant and businessperson in general. In the light of this, the School of Accountancy always requires professional communication from students. Students who communicate with staff of the School in an unprofessional manner (verbally, by e-mail or in EMSLearn) will be informed accordingly (*CA of the Future: Relational acumen*).

Students are discouraged from sending the same email to all the lecturers involved in a topic as it results in all the lecturers using their time to answer the same query.

If you require assistance in improving your communication style, you can contact any of your lecturers or the Language Centre of the University. SAICA also specifically emphasises communication skills, including the assessment thereof.

E-mails to lecturers will be answered during office hours within a reasonable time, taking lecturers' other responsibilities into account.

Announcements and preparation (homework) will be made via an announcement on EMSLearn each week. It is compulsory to read the announcements (and your @sun email) daily.

Students are encouraged to ask questions and to participate in class discussions. You may also use consultations with the lecturers, academic trainee, the WhatsApp group and the discussion forum. Please note that all communication should be professional (*CA of the Future: Relational acumen*).

### Example of how to construct your email to a lecturer:

---

#### ***Appropriate heading***

*Dear Prof / Dr / Mr / Ms*

*I hope you are well.*

*[Body] Consider using language such as "may you please assist", "I kindly request your assistance with", "I would like to please enquire about..."*

*Kind regards,*

**NAME AND SURNAME (only for emails to the lecturers and not for assessments).**

---

Remember that you are communicating in a professional environment so the tone of your email matters – read it again before pressing "send".

#### **4.10. CONSULTATION TIMES**

Owing to the various combinations of the BAccounting/BAccounting LLB first year timetable, it is difficult to have set hours for consultations each week without prejudicing some students on other timetables. To remedy this, students are encouraged to send the relevant lecturer an email with **three different timeslots on three different days** (so 9 possible alternatives) and the lecturer will respond to you with an appropriate slot. However, for the two days before **each summative assessment (excluding the Deloitte Project)**, each lecturer's consultation hours will be made available in the "Admin" section on EMSLearn.

We prefer in-person consultations but can also accommodate students with consultations via MS Teams if necessary. You are expected to make an appointment with your lecturer in advance via email. You are encouraged to discuss problems you experience with the module with your lecturers in these sessions (limited to 20 minutes per session).

Please note that consultations are not 'additional', 'personal' or 'catch-up' lectures. Students are required to prepare specific questions on specific topics and to bring along all relevant material for lecturer consultations.

E-mails to lecturers and queries on the Discussion Forum will be answered during office hours within a reasonable time, taking lecturers' other responsibilities into account.

#### **4.11. WHATSAPP GROUP**

The WhatsApp group (FinAcc178 – Ask a friend) may be used for queries relating to the course content of the module. We want to promote peer-to-peer learning and students are encouraged to answer each other's questions.

Peer learning and individual student engagement are incredibly important in any learning environment. If the query consists of multiple questions, please number the questions.

## Financial Accounting 178 | 2026

The lecturers will only answer a question on this group if another student did not answer the question and one of the students send an email to the lecturers requesting us to assist.

If any student misuse the group, the student will be removed from the group and/or the group deleted.

<https://chat.whatsapp.com/G8eAdLELQI75UgndHMCyzS>

### 4.12. EMSLEARN DISCUSSION FORUM

The Discussion Forum function on EMSLearn may be used for queries relating to the course content of the module. The discussion forum also enables peer-to-peer learning and students are encouraged to answer each other's questions. Posts should not be addressed to the lecturers. It is not necessary to start and sign-off the posts with formal greetings as one would with an email. If the query consists of multiple questions, please number the questions. Questions posted on the Discussion Forum will be answered in the language in which it was raised.

Please note that the WhatsApp group and the EMSLearn Discussion Forum are public platforms (*CA of the Future: Ethics, values and attitudes; Relational acumen*).

### 4.13. COPYRIGHT

Stellenbosch University holds the copyright to all material in this module. Material which is made available through EMSLearn may be subject to certain licencing conditions. You may only use the material for your own private study and research at the University and not for any other purpose. Printed material is also only made available for class discussion, private study and research purposes. Further reproduction or distribution of such material is prohibited. Contravention of these rules will result in disciplinary action and may result in legal action (*CA of the Future: Ethics, values and attitudes*).

## 5. ASSESSMENT FOR YEAR MODULES

The Faculty's Assessment Rules are available online at <https://www.su.ac.za/en/faculties/economy/first-year-students>, under the 'EMS Undergraduate Assessment Rules' tab. Please watch the information video under the 'EMS Assessment Rules Information Video' tab or your module's EMSLearn page and make sure you read the section on Assessments in the module framework carefully.

## Financial Accounting 178 | 2026

The faculty's approach to assessment places the responsibility of learning with the student. Therefore, you must make use of all available assessment opportunities as far as possible and ensure you understand how assessment in the module works.

The assessment of your performance in Financial Accounting 178, in accordance with the Faculty of Economic and Management Sciences Undergraduate Assessment Regulation and the General Yearbook/Calendar (Part 1) of the University, takes place in the form of:

- Summative assessments, that contribute to a student's final mark (main assessments and assessment further (AF)), and
- Formative assessments, which are a critical element of mastering Financial Accounting even though they do not contribute to the student's final mark (formative assessment further (FAF)).

The breakdown and nature of the assessments, as well as the relevant dates and weights to the student's final mark are shown in the diagram below:

## Financial Accounting 178 | 2026

### 5.1. ASSESSMENT OPPORTUNITIES

#### Main assessments:

|                                                                                      |
|--------------------------------------------------------------------------------------|
| <b>Assessment 1 Semester 1 (A1S1)</b><br>Test: 24 March 2026 (start 17:30)<br>15%    |
| <b>Assessment 2 Semester 1 (A2S1)</b><br>Test: 20 May 2026 (start 14:00)<br>20%      |
| <b>Assessment 1 Semester 2 (A1S2)</b><br>Test: 3 September 2026 (start 17:30)<br>20% |
|                                                                                      |
| <b>Assessment 2 Semester 2 (A2S2)</b><br>Test: 2 November 2026 (start 14:00)<br>40%  |
| <b>Assessment 3 (A3)</b><br>Test: 26 November 2026 (start 14:00)<br>*weight depends  |

**Internal Moderator:** Ms L. Sahd CA(SA)

It is the student's responsibility to confirm the dates and times of each main assessment opportunity on the official University's system.

#### \* A3 weight:

- If you wrote all other main assessments, and write A3 to pass the year, the weight of A3 will be 40%
- If you missed one assessment and write A3, the weight of A3 will be 40%
- If you missed more than one assessment, the weight of A3 will be the sum of the weights of the two missed main assessment opportunities.

#### Other assessments

|                                                                                                                                          |                                                                                                                                                                                                                       |
|------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Assessment Further (AF)</b><br><b>Semester 2:</b><br>Deloitte CA of the Future project (AFS2)<br>03 August – 17 August 2026<br><br>5% | <b>Formative Assessment Further (FAF)</b><br><br>Announced assignments, practical classes, unprepared questions, self-evaluating questions, clickers, EMSLearn quizzes, class discussions and other assessment tools. |
|------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Religious and cultural days:** In addition to public holidays, during which the University will be closed for business, no assessments will be scheduled on specific religious and cultural days that are noted in the SU Almanac. If any main assessment is scheduled on a religious or cultural day not included in the almanac, it is the student's responsibility to request special arrangements. The following apply:

- For A2S1, A2S2 and A3 the Assessment Office will make the necessary arrangements where possible. Visit the Examinations Office in Admin A in the course of the last two class weeks of the semester.
- For A1S1 and A1S2 the department/school will make the necessary arrangements if it is feasible in accordance with the arrangements usually made by the Assessment Office for A2S1, A2S2 and A3. If a student wants to request special arrangements, they must contact the lecturer at least two weeks before **each** assessment opportunity.

The calculation of your final mark (FM) is based on a weighted formula. The formulas used to calculate your progress throughout the semester and the marks will be made available on SUNStudent. The formulas are as follows:

### **MY (mid-year) marks are calculated after A2S1:**

$MY = (W_{AFS1}/W_{sum}) AFS1 + (W_{A1S1}/W_{sum}) A1S1 + (W_{A2S1}/W_{sum}) A2S1$ ,  
where  $W_{sum}$  is the sum of the W-factors for the assessments you wrote.

MY is assigned only if you wrote at least one of A1S1 and A2S1.

*Students should remember that residence allocations for 2026 are based on mid-year marks. Many external bursaries require that you report your mid-year marks and new bursary applications are often based on mid-year marks.*

### **MTD (mark to date) before A2S2:**

$MTD = (W_{AFS1}/W_{MTD}) AFS1 + (W_{A1S1}/W_{MTD}) A1S1 + (W_{A2S1}/W_{MTD}) A2S1 + (W_{AFS2}/W_{MTD}) AFS2 + (W_{A1S2}/W_{MTD}) A1S2$ ,  
where  $W_{MTD}$  is the sum of the W-factors for the assessments you wrote.

*This is not an official mark. It helps you to see where your marks are at before the commencement of the Oct/Nov assessment period. This mark is only calculated towards the end of the year before the "exam season" and is not subsequently updated for A2S2 and/or A3 performance. It only comprises of the term assessments **YOU** have written and the Deloitte project (if submitted), shown as out of 100. When calculating your final mark, this mark is not considered.*

### **FM1 after A2S2:**

$FM1 = (W_{MTD}/W_{sum}) MTD + (W_{A2S2}/W_{sum}) A2S2$ ,  
where  $W_{sum} = W_{MTD} + W_{A2S2}$ .

FM1 is assigned only if you wrote at least two of the following three assessments, namely A1S1, A2S1, A1S2, in addition to having written A2S2.

*If you did not write A2S2, you will still receive a FM1, calculated with a zero for A2S2. This is to ensure you have access to A3. When calculating FM2, we will not use FM1.*

### FM2 after A3:

$FM2 = (W_{MTD}/W_{sum}) MTD + (W_{A2S2}/W_{sum}) A2S2 + (W_{A3}/W_{sum}) A3$ ,  
where  $W_{sum} = W_{MTD} + W_{A2S2} + W_{A3}$  if you wrote A2S2 and A3,  
or  $W_{sum} = W_{MTD} + W_{A3}$  if you wrote A3 and not A2S2.

FM2 is assigned only if you wrote at least three main assessments of which **at least one is A2S2 or A3**.

When calculating the MY mark, MTD or a FM using the formulas please note the following:

- $W_{sum}$  is the total weight of all the assessment opportunities you completed. Even if you missed main assessment opportunities. The total weight will at least be 1.
- For all main assessment opportunities. (A1S1, A2S1, A1S2, A2S2 and A3), the weight of the relevant assessment will be reduced to zero in the mark calculation formula (however  $W_{sum}$  will never be less than 1).
- Your FM for the module is the highest of FM1 or FM2.

### 5.2. PASS REQUIREMENTS

Firstly, a **valid** FM of **at least 50** is required to pass the module. To obtain a valid final mark you must:

- Complete at least one of A2S2 or A3
- Complete at least three main assessment opportunities

If you do not obtain a **valid** final mark, you will fail the module and no final mark will be allocated to you.

It is highly recommended that students make use of all assessment opportunities to increase their development and understanding of the subject and therefore increase their chances of obtaining a good mark.

### 5.3. ACCESS TO ASSESSMENT 3 (A3)

Note that it is not necessary to submit medical certificates or any other documents for missed assessment opportunities.

You have access to A3 if either of the following applies:

You have access to A3 if either of the following applies:

- If you completed all the main assessment opportunities other than A3 (A1S1, A2S1, A1S2, A2S2, but have not obtained a FM of 50 or more, you have access to A3 in order to improve your FM to 50.
- You missed one or two main assessment opportunities (A1S1, A2S1, A1S2, A2S2) for whatever reason. In this case, a FM of 50 or more can still be obtained if you make use of A3.

**No further assessment opportunities will take place after A3.**

## Financial Accounting 178 | 2026

If you passed the module after A2S2 and you have access to A3 (because you missed a main assessment) you must inform the Registrar's Office through the relevant procedure on SUNStudent of your intention to use the A3 assessment opportunity. This notification must be submitted by no later than 48 hours after the final marks after A2S2 have been released.

### Please note:

- Any student who completed all of the first four main assessment opportunities (A1S1, A2S1, A1S2 and A2S2) and obtained a FM of  $\geq 50\%$  and consequently passed the module, will not be allowed to write A3 in an attempt to improve their final mark.
- The Financial Accounting 188/178 conversion assessment (summer school) may not be written by any registered Financial Accounting 178 student in an attempt to improve their final mark.

### 5.4. CLASHES WITH ASSESSMENTS IN OTHER MODULES:

Students who are first year BAcc students in 2026 will not have any clashes between main assessments.

Students are not allowed to register for courses for which assessments times clash. Should you have an assessment clash with another course, you must write A3 for one of the courses where you have a clash.

*Note that the lecturer is under no obligation to make an alternative arrangement for you.*

Clashes that occur regarding Assessment 2 (Semester 2) (A2S2) and Assessment Opportunity 3 (A3) are administered by the examination office who need to be consulted in this.

### 5.5. WORK COVERED PER ASSESSMENT OPPORTUNITY

The prescribed work covered per assessment opportunity is as follows:

- Assessment 1 Semester 1 (A1S1):
  - VAT, Accounting Cycle, Conceptual Framework and IAS16 (part 1).
- Assessment 2 Semester 1 (A2S1):
  - Basic concepts from term 1, IAS16 (part 1 and 2), IAS19, IAS37, IAS 7 Statement of Cashflows (part 1) and Group Statements.
- Assessment 1 Semester 2 (A1S2):
  - Basic concepts from semester 1, IAS2, Inventory on consignment and companies.
- Assessment 2 Semester 2 (A2S2):
  - All work done during the year.
- Assessment 3 (A3):
  - All work done during the year.
- AFS2:
  - will be communicated in class.

If there are any changes to the work for any assessment, we will announce it in class.

### 5.6. MAIN ASSESSMENT OPPORTUNITIES

Assessment 1 (Semester 1) <sub>(A1S1)</sub>, Assessment 2 (Semester 1) <sub>(A2S1)</sub>, Assessment 1 (Semester 2) <sub>(A1S2)</sub> and Assessment 2 (Semester 2) <sub>(A2S2)</sub> will take the form of tests written under formal test conditions. The duration of each test is 3 hours writing time and 5 minutes reading time. Each test will consist of 100 marks.

All main assessments will be written face to face and invigilated on campus.

### 5.7. ASSESSMENT FURTHER (AF)

Assessment Further: Semester 2 <sub>(AFS2)</sub> will take the form of a group project lead by Deloitte. More information will be given during the information session scheduled during class time in the second semester.

### 5.8. FORMATIVE ASSESSMENT FURTHER (FAF)

Formative assessment opportunities are those assessment opportunities that do not contribute to the students' final mark but assist students to stay up to date with the work and assess their own performance and degree of understanding of the subject matter.

These formative assessment opportunities have proven to be a critical part of gaining an understanding of Financial Accounting and addressing exam technique challenges (time management, communicating the concepts clearly and approach to question), early enough, to enable students to take corrective measures before summative assessments are undertaken.

These formative assessments will take the form of announced practical class questions (as described in the table above) or unannounced tutorial tests, self-assessment questions, EMSLearn quizzes (other than those indicated as AF), class discussions and other assessment tools to enable students to master the content and achieve the learning outcomes of the module.

### 5.9. RULES APPLICABLE TO MAIN ASSESSMENTS

**The structure, composition and content of assessments are confidential. No lecturer will discuss with or make available to students any information in this regard** (*CA of the Future: Ethics, values and attitudes*).

**5 minutes of reading time** will be given at all assessments. The reading time will be given after the papers have been handed out, prior to the commencement of writing time. During this time students are not allowed to write or highlight on the question paper or the answer script at all. The reading time will commence at the official starting time of the assessment.

The assessment rules as set out in the University Yearbook, the assessment book folder and on the assessment will be applicable to all assessments.

Any student present in the summative assessment venue and who received an assessment paper, will be awarded a mark for the assessment.

## Financial Accounting 178 | 2026

Students are not allowed to bring **answer books** with them into the assessment venue. Students found in possession of such books are deemed to be in contravention of the assessment rules and may be subject to disciplinary action.

### 5.10. DISHONEST CONDUCT

**Any** dishonest conduct of a student related to assessments may result in disciplinary action by the University against the student. This also applies to dishonest conduct related to online assessments, such as EMSLearn assessments, where a student who has answered the assessment and has received online feedback on it (i.e., the correct answer), copies the feedback and distributes it to other students who still must attempt the assessment. This also extends to the remark process (*CA of the Future: Ethics, values and attitudes*).

### 5.11. MODERATION

Moderation is the process during which the reliability, correctness and validity of the Assessment 2 (Semester 2) (A2S2) and Assessment 3 (A3) as well as the marking process and the result of a module is reviewed and validated.

Refer to the 2026 Yearbook of the Stellenbosch University (Part 1 – General) relating to University examinations in this regard.

The internal moderator for Financial Accounting 178 for 2026 is Ms L Sahd CA(SA).

### 5.12. PRESENTATION OF ANSWERS IN ASSESSMENTS

- Use clear, legible handwriting in understandable Afrikaans or English. If terms from another language are used, it should be shown in inverted commas.
- No answer will be marked if a student does not write out amounts in **full** during tests or exams, e.g. 200' instead of 200 000. All amounts must be written in full to receive any marks for a given answer. This also applies to any amounts used in a calculation.
- **Abbreviations** must be avoided in your answers. In discussion questions you may use recognised abbreviations (for example etc.). In both discussion and journal questions, you may use a key to define your own abbreviations. **No abbreviations are allowed in statements.**
- In calculations, **abbreviations** (for words and amounts) are allowed if the marker can follow your work. No key is needed for abbreviations in calculations (like the analysis).
- **Showing your calculations** are crucial. Students lose a lot of marks if the marker can't see how amounts are calculated. Please make use of cross-referencing to reference your final answer to calculations. **Your final answer is marked; we do not mark calculations (including analysis) that are not cross referenced to and used in your answer.**
- Answers and calculations in **pencil** will not be marked (University rule).
- If you want to **change** your answer, you must draw a single line over it. The use of tipex is discouraged, as such parts won't be available for remark. If, after scratching out the answer you realize that the answer is correct, you can indicate next to the line that the line must be ignored and that the answer is correct and must be marked.
- If you provide **two answers** and not one of them have been crossed out with a single line, only the first answer will be marked.

- In **journal questions** the statement affected (OCI, P/L, SCE, SFP) must be shown clearly, irrespective of whether the question asks for it or not. SCl is **not** an acceptable description; you must indicate P/L or OCI. You must clearly show whether you want to debit or credit the account (by writing next to it and/or by drawing columns). You do not have to write journals in date order, unless the question specifically requires it. Your journals must always include narrations, unless specifically excluded.
- From time-to-time **negative marking** may be applied to test core principles. Negative marking normally takes place where the student already received marks, but the answer is not 100% correct.
- Read your **required part** thoroughly and make sure you only address what are asked. It is important not to waste time by addressing things that are not required. The required part may limit your answer to a specific standard, specific company or year end.
- **Comparative figures** are required in financial statements, unless specifically excluded (for Financial Accounting 178 comparative figures will always be excluded).
- **Headings** (to journals, ledgers and statements) are required, unless specifically excluded.
- **Journal narrations** to journals are required, unless specifically excluded.
- In **discussion questions** you may quote from the standard in English and then discuss in Afrikaans. You don't have to write down the paragraph number (for example IAS 12 par 15(b)).
- Students are allowed to write their assessments in **indelible black or blue ink only**.

This applies to **ALL** assessments and any other work assignments handed in. Any academic work which does not meet these requirements will not be marked.

### 5.13. TURNOVER TIME AND FEEDBACK

Due to the nature of the subject and the large number of students we retain the right to a window period of at least four weekends after the date of the assessment to complete the marking process. This is to ensure that all assessment books are completely and accurately marked and that an adequate quality of marking is maintained.

### 5.14. HANDOUT OF TESTS, APPEALS / REMARKS

The dates of handout sessions will be communicated in class and/or via EMSLearn.

If you cannot collect your script during the allocated time slots, you may collect it from the hand-out room. Please note that the hand-out room is next to a lecture hall and you should keep as quiet as possible when collecting your script there. The scripts will be in the hand-out room the day after the allocated time slots.

The hand-out room (Van der Sterr 2120) will be open from **09:00 to 15:00 on a Monday to Thursday, and 09:00 – 12:00 on a Friday**. (Excluding class free days, public holidays, assessment times and holidays).

A2S2 and A3 scripts and suggested solutions are not distributed to students. Opportunities for the discussion of A2S2 and A3 scripts will be arranged in accordance with the rules set out in Stellenbosch University's General Information and rules (Calendar, Part 1) for 2026.

## Financial Accounting 178 | 2026

A complete solution/mark scheme will be made available to students on EMSLearn for A1S1, A2S1, and A1S2.

Remark queries relating to A1S1, A2S1 and A1S2 must be completed on a separate page in as much detail as possible and placed inside the answer script. Remark queries must be handed in within the prescribed remark query period. The deadline for remark queries and where it must be handed in will be communicated in class and on EMSLearn. All answer books must be handed in when a remark is submitted.

### **No remark queries will be accepted after the prescribed deadlines.**

Please take note of the following risks when handing in remark queries:

- Questions in relation to which remark queries were submitted may be remarked in full. This may result in marks that were previously incorrectly allocated, being subtracted.
- Several answer scripts are randomly selected and copied before they are made available to students. The copies are then compared with remark queries to identify any dishonest amendments to answers. Disciplinary steps will be taken against students who have altered or who have added additional information in their answer books.

In accordance with Stellenbosch University's General Information and rules (Calendar, Part 1) for 2026, no applications for re-evaluation (remark) of A2S2 or A3 scripts may be submitted.

## 6. ACADEMIC INTEGRITY AND THE USE OF GENERATIVE AI TOOLS IN THIS MODULE

Plagiarism is the practice of taking someone else's work or ideas and pretending that it is your own this can include copying work from AI platforms. AI may not be used to complete any assessment on your behalf.

For the purposes of your assignments and AFS2 project (see 5.7), the following are permitted (full details of how you used AI will have to be disclosed in your AI declaration):

| AI used for                           | This would be similar to                                                                              | Be aware of                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------|-------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Learning about the topic under review | Google search or checking Wikipedia                                                                   | AI can produce factually incorrect outputs.<br>You need to<br>(1) find the original owner of the idea (cite the work properly),<br>(2) ensure that all content is factually correct, and<br>(3) draft your own content using the original sources.<br>This implies that you process sufficient knowledge about the topic to verify that the output is accurate. |
| Searching for literature on a topic   | SU Library and Database or a Google Scholar search.                                                   | Chat-GPT have been known to create fake citations.<br>You will need to<br>(1) Always check that references are accurate (exist), and from reputable sources.<br>(2) Include the URLs of all references in your bibliography.                                                                                                                                    |
| Language Editing                      | This is similar to using a spelling checker and language enhancement tools in MS Word, and Grammarly. | Always save a draft of your original text as backup, and remember to check the accuracy of the suggestions made by language editing software. Make sure that the authenticity of your text is not compromised.                                                                                                                                                  |

|                     |                                                                                                 |                                                                                                                                                                                                                                                                          |
|---------------------|-------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                     |                                                                                                 | Do not allow the language enhancement tools to suggest entire paragraphs of text.                                                                                                                                                                                        |
| Soliciting feedback | Asking a friend, tutor, family member or teacher to proofread your work and offer you feedback. | You may be asked to provide evidence of your learning process, i.e. a copy of the feedback on how you responded to it. Remember that you are ultimately accountable for your work and that you should feel comfortable with the improvements you ultimately incorporate. |

For the purposes of your AFS2 project, you will not be allowed to use AI for the following purposes:

| AI used for                                             | This would be similar to                                                         |
|---------------------------------------------------------|----------------------------------------------------------------------------------|
| Generating or drafting sections or your entire project. | Asking someone else to write/complete your assignment.                           |
| Revising a piece of work.                               | Asking someone else to improve/rewrite your work.                                |
| Using Chat-GPT prompt created by another student        | This is similar to copying another student's work and presenting it as your own. |

All students are required to complete and include the following AI use declaration as part of your AFS2 project submissions.

**If you did not use AI at any point in the project:**

I/We hereby declare that this project submission was composed by the group members listed/registered under the group number and that the work herein is our own except where explicitly stated otherwise in the text. This work has not been submitted for any other assessment purposes, except as specified, or shared with students from other universities or groups in the module. Where other people's work has been used (either from a printed source, internet, or any other source), this has been carefully acknowledged and referenced. During the preparation of this project, I/We have not used any artificial intelligence (AI) or AI-assisted tools or technologies (such as large language models, chatbots, or image creators) and I/we take full responsibility for the content of the whole project.

Please take note of 5.10 Dishonest conduct before completing your AI declaration.

### 7. CLASS REPRESENTATIVES

A system of class representatives is used in the School as communication channel between students and the School. At the beginning of the year students elect one class representative for each group to represent the group. The School appoints an independent lecturer who is in no way involved in the education of the students and who will regularly contact the class representatives.

The independent lecturer for Financial Accounting 178 is Mrs Eloff

Office: Van der Sterr 3090

E-mail: [aeloff@sun.ac.za](mailto:aeloff@sun.ac.za)

Tel: (021) 808 2853

It is the responsibility of the class representatives to communicate matters relating to the subject to either the lecturer or the independent lecturer on behalf of the group.

### 8. STUDENTS SWITCHING FROM B.ACC TO B.COM (FINACC 178 TO FINACC 188)

- Any student who considers switching to BCom must first arrange a meeting with the module coordinator, Mr L Ngobese ([Lmngobese@sun.ac.za](mailto:Lmngobese@sun.ac.za)), to get permission to change their course. Admin will not allow you to change without a written confirmation from your FA178 module coordinator.
- Students may not switch after 1 August 2026.
- The student must report to the BCom module coordinator, (Mrs Fourie, [sher@sun.ac.za](mailto:sher@sun.ac.za)), within one week after they have switched over.
- The student must request the BAcc module coordinator to email the BCom module coordinator with the student's marks for the year within one week after he/she has switched over.
- The student that switches over must work through the FA188 module framework thoroughly to familiarise himself/herself with the assessments at FA188, calculation of final mark as well as dates of assessments.
- All marks obtained for main assessment opportunities that was written in FA178 will be transferred to FA188 to replace the relevant assessment at FA188 (no adjustments will be made to the marks). Take note that AF marks will not be carried over.
- Any summative assessment opportunities that were not written in FA178 yet, will be written in FA188, as set out in FA188's module framework.

**If you changed from Financial Accounting 178 to Financial Accounting 188, you will not be allowed to write the Financial Accounting 188/178 conversion exam / summer school.**

### 9. HELP FROM EXTERNAL PARTIES

The School of Accountancy is aware that outside parties and senior students provide independent extra classes, question papers of previous years and other assistance to students at additional cost. Students can make use of this assistance at their own risk, but the School of Accountancy accepts no responsibility whatsoever for this and recommends that students should rather make use of the additional help offered by the lecturers at the School of Accountancy and other Stellenbosch University initiatives. If you receive any emails that are not from the lecturers or faculty and you are unsure about the

## Financial Accounting 178 | 2026

validity of the help offered, please consult your lecturers (if there is a cost involved, it is not offered by the School of Accountancy or the faculty).

### 10. FINANCIAL ACCOUNTING 178 SUMMER SCHOOL

A summer school option **might** be available to students who failed the module with a mark between 40 and 49%. The availability of a summer school will be confirmed by end of September 2026.

The preliminary dates for the summer school are 6 – 26 January 2027 (the dates will be confirmed in September 2026 when the summer school is confirmed). Where travel or other personal arrangements are being considered for these periods, students are encouraged to make these arrangements flexible. This is to allow room for students to be able to attend the summer school should they need it. **No relaxations or special accommodations will be considered in this regard.**

The detail information for the summer school will be communicated to students who qualify after the release of final marks (around about 10 December 2026).

Please note that only students who meet all the criteria will be allowed to register for the summer school:

- A student who is registered for Financial Accounting 178 in 2026 and obtains a final mark between 40% and 49%.
- A student who commits to attend all classes, tutorials and assessments in person.
- A student who arranges their own accommodation

You may only register for one summer school and may only do the Financial Accounting 178 summer school **once**.

## 11. WORK PROGRAM

Please note that the number of lectures planned for each of the following topics within the course framework, may be changed at a later stage, at the discretion of the lecturers and depending on circumstances. Therefore, the commencement date per topic and lecturers involved may change from the suggested outline below.

| Date               | Topic                                                            | Number of lectures |
|--------------------|------------------------------------------------------------------|--------------------|
| <b>FIRST TERM</b>  |                                                                  |                    |
| 09 Feb             | Administration                                                   | 1                  |
| 10 Feb             | CA of the future                                                 | 1                  |
| 11 Feb             | VAT                                                              | 3                  |
| 17 Feb             | Accounting cycle                                                 | 9                  |
| 04 Mar             | IFRS: Conceptual framework                                       | 5                  |
| 13 Mar             | IAS 16: Property, plant and equipment                            | 6                  |
|                    |                                                                  |                    |
| <b>SECOND TERM</b> |                                                                  |                    |
| 07 April           | IAS 16: Property, plant and equipment (continued)                | 8                  |
| 17 April           | IAS 19: Employee benefits                                        | 3                  |
| 22 April           | IAS 37: Provisions, Contingent liabilities and Contingent assets | 4                  |
| 04 May             | IAS 7 : Statement of Cash Flows (part 1)                         | 3                  |
| 7 May              | Introduction to group statements                                 | 5                  |
|                    |                                                                  |                    |
| <b>THIRD TERM</b>  |                                                                  |                    |
| 21 Jul             | IAS 2: Inventory                                                 | 14                 |
| 17 Aug             | Inventory on consignment                                         | 3                  |
| 21 Aug             | IFRS 18: Presentation and disclosure of financial statements     | 7                  |
|                    |                                                                  |                    |
| <b>FOURTH TERM</b> |                                                                  |                    |
| 14 Sep             | Companies                                                        | 13                 |
| 7 Oct              | IAS 10: Events after Reporting period                            | 3                  |
| 13 Oct             | IAS 7: Statement of Cash Flows (continued)                       | 4                  |

12. EXAMPLE: ASSESSMENT INSTRUCTIONS

**EXAMINERS:**  
Lecturer's names

**FINANCIAL ACCOUNTING 178**  
**ASSESSMENT 1 SEMESTER 1 (A1S1)**

**DATE**

**The English paper ends on page 9. *Die Afrikaanse vraestel volg op bl. 11.***  
**The IFRS standards appendix starts on page 20 and ends on page 22.**

**Number of questions:** 5  
**Time:** 5 minutes reading time; 3 hours writing time  
**Marks:** 100

**INSTRUCTIONS TO CANDIDATES:**

1. Write your name and student number on the front page of each book. Do not use your name anywhere in the paper.
2. Answer all questions completely. Start each question on a new page.
3. Answer all questions in one book.
4. The formal answer should meet the following requirements:
  - In clear, legible handwriting in understandable Afrikaans or English. If terms from another language are used, it should be shown in inverted commas.
  - Presented in ink.
  - Answers presented in erasable ink will not be marked. The School reserves the right to review any answers for the use of erasable ink.
  - Properly structured with suitable headings and sub-headings.
  - Where applicable, be presented in bulleted format.
  - Every sentence should start on a new line and relate to only one fact or statement.
  - After every paragraph or loose standing sentence, leave a line open.
  - When abbreviations are used, only recognised and grammatically correct abbreviations are allowed (non-recognised abbreviations are only allowed in the calculations that do not form part of the formal answer).
5. Calculations should meet the following requirements:
  - All calculations should be shown and presented in an orderly and neatly manner.
  - Calculations must be done under the heading "calculations" and cross-references between the calculations and the formal answer should be provided.
6. Calculators may be used.
7. No correction fluid may be used.
8. Examination aids (including blank paper, books, written material and electronic apparatus, excluding cell phones which are to be switched off and placed faced down in front of the student on the writing surface) are not allowed in the examination rooms, except where the use of specific items is expressly permitted or prescribed.
9. Wrist watches are to be taken off and placed face down on the writing surface in front of the student along with cell phones.
10. Round off all amounts to the nearest Rand, unless otherwise stated.
